

Gadri Mohamed

+212 615121400 | gadrimohamed8@gmail.com | [LinkedIn](#) | [Github](#)

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, C
Frontend: React.js, Next.js, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js, Nest.js
Databases: MongoDB, PostgreSQL, Supabase
Other Tools: Git, GitHub, REST APIs, WebSockets, Jest, Recharts, Linux/Terminal

EXPERIENCE

Frontend Web Developer (Intern)	BigbangCenter Agency	Jan 2023 - Mar 2023
<ul style="list-style-type: none">Contributed to the creation of an interactive 3D website using Three.js, enhancing visual engagement and user experience.Applied strong skills in JavaScript, WebGL, and 3D modeling to design and implement immersive web features.Demonstrated adaptability, problem-solving, and a proactive approach while collaborating within a development teamTech Stack: React, Supabase, React Query, Recharts		

PROJECTS

- 1. The Wild Oasis – Hotel Management Web App ([Github](#))**
 - Developed a full-featured hotel administration dashboard using React, Supabase, React Query, and Recharts to manage cabins, bookings, and guest data.
 - Aimed to master real-time data handling, role-based authentication, and dynamic visualizations for hotel operations.
 - Delivered an intuitive interface with real-time dashboards and CRUD operations; increased data visualization quality and user experience.
 - Tech Stack: React.js, Supabase, React Query, Recharts
- 2. TaskPulse – Task Management Application ([Github](#))**
 - Built a task management system with drag-and-drop task organization, dashboards, and real-time activity logs using React, Redux Toolkit Query, and modern UI libraries.
 - Created to strengthen skills in state management, asynchronous data handling, and visualization of project workflows.
 - Delivered a responsive, data-driven interface that improved productivity tracking and provided clear insights into task distribution and project progress.
 - Tech Stack: React.js, Node.js, Express.js, Jwt, Recharts, Styled Component
- 3. Quiz App v3 – Interactive Quiz Platform ([Github](#))**
 - Built an interactive quiz application with dynamic question flows, scoring logic, and timed challenges using JavaScript, React, and state management techniques.
 - Developed to enhance skills in user interaction handling, dynamic UI updates, and state synchronization for responsive web experiences.
 - Delivered a polished and engaging learning tool, with immediate feedback and smooth user experience across multiple quiz sessions.
 - Tech Stack: React.js, Redux Toolkit Query, React Query, Tailwind.css, Node.js, Express.js, Jwt

EDUCATION

Diploma in Fullstack Development	ista ntic Beni mellal	Sep 2021 - Jun 2023
<ul style="list-style-type: none">Year 1: Python, PHP, JavaScript, HTML, CSS, Git, Linux basics, Agile methodologyYear 2: Laravel, React.js, REST APIs, Database design		

ACHIEVEMENTS

- Football:** Played in local teams, developing teamwork, discipline, and strategic thinking.
- Video Games:** Engaged in strategy and multiplayer games, enhancing problem-solving, decision-making, and quick reaction skills.

LANGUAGES

- Arabic:** Native
- French:** Professional working proficiency
- English:** Intermediate proficiency
